

ST VIANNEY JUNIOR SCHOOL PARENTS ASSOCIATION

P.O. Box 11758, Kampala – Uganda

E-mail: stvianneyjspa@yahoo.com

Date: 13th May 2016

INFORMATION SUBMITTED TO: MS. V.WALKER, PRESIDENT **VCHFOUNDATION.ORG**

Physical address:

13 miles, Kampala-Gayaza-Kalagi Road. Branch off 1½ miles from Manyangwa trading center to Namayina. St Vianney Junior School is located on the main road just after Ndazabazadde trading center.

These are letters written to me from ST. Vinney seeking help to build their school.

Qn. No. 1. Pictures of the project:

The photos below show the front and side views and the current state of the 4 classroom building which needs completion.

Qn. No 2. Pictures teachers and their names:

The school has a teaching staff of 11 members including the School Director (Mr. William Kizza who teaches Mathematics only in Primary 7 class.), He stands 3rd from left on back line in the photo.

No	Name of teacher	Subjects taught
01	Mr. William Kizza	Mathematics
02	Mr. Solomon Kakumba Tuusubira	SST & Mathematics
03	Mr. Mpoya Tufaili	SST & Mathematics
04	Mr. Julius Mujulizi	Science & SST
05	Mr. Alarici Joshua	English & Science
06	Ms Ester Namulinda	Literacy 1 & 2, English
07	Ms. Alenia Misery	English, R.E & Mathematics
08	Ms. Winnie Kirabo	Nursery section
09	Ms. Halima Kiwalabye	Nursery section
10	Mr. Senkya Charles	Literacy 1, English & Mathematics
11	Mr. Richard Kasamba	English, Literacy 2 & Science

Qn. No. 3, 4 & 6. The Present atmosphere the children are learning

The photos below show the children in a classroom seated on scrap furniture which we got from a friendly school after being disposed off as scrap. We need classroom furniture for 160 children.

More Desk and chairs needed

5. Need for a blackboard

The picture below shows a teacher in the infant class using a hardwood board as our blackboard. It also shows the children squeezed in a partitioned room. This is one of the classes to occupy the new building when it gets finished.

Not enough seats for the children

7. Growing nutritious foods (Vegetable gardening)

The pictures below show a school garden for training children in vegetable gardening and also vegetable production. The foods grown is used to feed school children. We grow Bugga, egg plants, Nakati, Carrots, Onions, Tomatoes, Akra and Cabbage.

8. Animals being reared

The pictures below show a small project of piggery rearing being run by the school for both training them in pig rearing and income generation. We have 8 pigs but would like to expand the project to 20 pigs if we get resources.

Qn. No. 9. Hut for raising chicken

We need to rear chickens to produce eggs for feeding the children and also have a surplus to sell to generate school revenue. There is a small area of school land where the hut for rearing chicken can be constructed.

Qn. No. 10. Need to plant corn

We need to plant maize and beans which is the major food stuff for feeding the children, in addition to providing maize bran for the pigs. Though the school does not have enough land but we can rent from those people with big land and grow the crops.

Additional information:

The photos below show the plight of the sanitation after the damage caused by earthquake to the school latrine and the underground water tank. The latrine is cracked and the water is leaking after serious cracks in it.

The Chairman, Parents Association, Mr William Mulyanti standing alongside the cracked pit latrine.
